

## **Introduction:**

- The following terms apply to intellij, jetbrains, pycharm, software, edition, version, tools, apache, community, commu
- The term "community" is a reference to the open source community of tools and software that are designed to help developers and IT professionals improve the quality and efficiency of their work
- IntelliJ is an open source tool that allows developers to create and share software projects and applications
- Pycharm is a community-based open source software tool that enables developers to share their software projects with each other and with the rest of the world
- The community version of PycharM is available for free download on GitHub.com
- The open source version is also available on the Apache Software Foundation's (ASF) website
- The ASF is a non-profit organization that promotes open source development and encourages developers to use open source tools to improve their software development and IT operations
- The terms and conditions of the community version are set out below, and are subject to change without notice
- For more information, see: <http://www.apache.org/licenses/LICENSE-2.0> .<n>For more information on the community edition, see the ASF's Community Edition
- The Community Edition is a free, open-source tool that provides developers with the ability to create, share, and distribute software projects, applications, and applications for free
- It is available in both English and Spanish, and can be downloaded from the AAF's website at: [www.aaf.org.uk/community](http://www.aaf.org.uk/community) .

Key Terms: intellij, jetbrains, pycharm, software, edition
